D. State of California

The State of California charges 10 cents per \$1,000 estimated valuation on all permits for construction of single- or multifamily structures one- or two-stories high. For valuation determination, see Information Bulletin 101, "Building Valuation Schedule."

E. County Water Authority

The San Diego County Water Authority is a separate agency from the City of San Diego which supplies raw water to the region. They may charge a capacity fee when a new water meter is installed. This fee is based upon the size of the water meter. A fee schedule is available at the Development Services Center, third floor, or on their web site at www.sdcwa.org.

If a San Diego County Water Authority fee is required, proof of payment must be shown prior to building permit issuance. This fee may be paid directly to the County Water Authority or through the Development Services Department. A \$10 check handling fee will be charged for each County Water Authority capacity fee collected by the Development Services Department.

F. School Fees

A school fee may be assessed by the local school district(s) for new construction. Contact the appropriate school district(s) within the project area for the current fees and where to pay. If a school fee is required, proof of payment must be shown prior to building permit issuance. With the exception of the San Diego Unified School District, this fee is paid directly to the school district(s). School fees within the San Diego Unified School District may be paid at their offices or at the Development Services Department. A \$10 check handling fee will be charged for each school fee collected by the Development Services Department.

G. Development Fees

The Facilities Financing Section of the Planning Department collects certain fees as part of land development within the City of San Diego. Facilities Benefit Assessments (FBA) or Development Impact Fees (DIF) are charged for development in all planned urbanizing and urbanized communities. Applicants usually pay one or the other (FBA or DIF), not both. In some cases, these fees may be deferred, see Information Bulletin 108, "Requirements for Development Fee Deferrals."

A Special Park Fee may be required for all new units constructed within certain communities.

Development fees are paid at permit issuance. The current Facilities Benefit Assessment and Development Impact Fees Schedule is available at www.sandiego.gov/planning or at the Development Services Center. For information call Facilities Financing at (619) 533-3670.

H. Water & Sewer Plan Check Fees

Development Services assesses a water and sewer plan check fee when a water and sewer review of any type is performed. The fee is based upon a combination of the number of Equivalent Dwelling Units (EDU) being reviewed and whether or not a change is being made to a meter. The plan check fee is based per meter and is charged for both irrigation as well as domestic meters. For the purposes of assessing these fees, 20 fixture units are given a value of 1 EDU. The plan check fees are charged at permit issuance as follows:

Item	Fee
1 - 2.9 EDUs	\$159 per meter
No meter change & up to 1 EDU	\$ 84 per meter
Meter change & up to 2.9 EDU	\$159 per meter
Cross Connection Controls	\$42 per installation

I. Water and Sewer Capacity Fees

Water and Sewer capacity fees associated with new construction are determined during the building permit plan review process. A capacity charge is collected for the maintenance/operation of present water and sewer facilities, as well as future expansion. Water and sewer capacity charges are calculated by Equivalent Dwelling Unit (EDU), and are collected at building permit issuance. Capacity fees can be deferred. For further information, see Information Bulletin 108, "Requirements for Development Fee Deferrals." See Table C for a list of water and sewer capacity fees.

J. Water and Sewer Installation Fees

Water and sewer service installation fees associated with new construction are determined during the building permit plan review process. Table C lists fees for water and sewer services, including potable and reclaimed water for the City of San Diego. A Water Meter Data Card is used to determine the correct size required for water meter, service and sewer lateral. Water Meter Data Cards are available at the Development Services Center. All water and sewer costs associated with construction will be assessed at the time of building permit issuance.

IV. ENHANCED/OPTIONAL SERVICES

Sewer Capacity Charge (per EDU)	\$3,710

Generally, Equivalent Dwelling Units are calculated as follows. For clarification or for facilities not listed, phone (619) 446-5000. Capacity charges are more particularly described in the Water Department Instruction 55.30, "Water and Sewer Capacity Charges." Copies are available upon request.

Commercial and residential units sharing a common water meter will be charged one EDU for each twenty fixture units or fraction thereof, plus any other applicable capacity charges.

C. Reimbursement Fees

In certain areas developers have agreed to install public water and/or sewer facilities for future use. An arrangement is made between the City and the Developer to collect the costs of these improvements from benefitting builders. Reimbursement fees are due at the time the water meter and/or sewer connection fees are paid (typically when the building permit fees are paid). To determine if a particular lot is subject to these reimbursement fees and fee amounts, please visit the Development Services Center or phone (619) 533-5142 for water and (619) 533-4258 for wastewater.
